

GlammFire

Kit Glamm 3D Toro

Electric

Assuming themselves as true protagonists in terms of decor, Kits Glamm 3D are conspicuous by their great versatility and ability to create a pleasant interior atmosphere. Owing to the use of 3D technology they provide also an incredible sense of visual comfort and aesthetic balance.

The beauty of the spaces lies in the details.

Kit Glamm 3D Toro

Installation

Select a suitable location that ensures the Kit 3D toro is sitting on a hard level surface for optimum flame effect. Allow for approximately 5cm of clearance behind the unit (from the frame to the back of the mantle) and 20cm directly above the back log to allow for removal of the Refill Container. Only use filtered tap water in this appliance, once installed, never move this appliance or lay it on its back, without draining the water from the sump and water tank.

The refill container, reservoir, cover and container cap must be cleaned once every two weeks, particularly in hard water areas.
